

technology healthcheck

75% of c-level executives say their company's existence will be threatened if they fail to update their technology

3 main cases where healthcheck can bring the solution:

case A

need for expert opinion / review / quality assurance

case B

planned, or undergoing significant tech change / migration

case C

urgent tech issue

case A

**need for expert opinion / review /
quality assurance**

Sometimes, there is no urgent need or tech issues customer is facing, but he "just wants to be sure", that he is maximising the potential of given technology and "makes things properly". Our healthcheck provides comprehensive assessment on the project / product from tech, process and people point of view including comparison with competition and recommendation for next steps.

case B

**planned, or undergoing significant
tech change / migration**

A significant change of architecture, or tech migration requires always proper business case. Proper tech implementation is key element for the case fulfilment. Our healthcheck can be used as technical basis for change / migration project with gap analysis and recommendations for next steps, or migration strategy.

case C

urgent tech issue

Slow Performance , scaling issues, or unstable environment are often issues, where root cause analysis can be non-trivial. Our tech assessment can be focused on particular part of your solution with the goal of root cause identification and fix/solution proposal and/or its implementation.

testimonials

We liked the ableneo's knowledge, flexibility and the speed of execution of the Liferay Healthcheck. The final presentation including summary and recommendations helped us to focus on the most important and critical improvements in our solution.

Jaroslav Vojčik

Manager of Design of client processes department, ČSOB a.s.

ableneo Healthcheck helped us to identify our hard-to-maintain portal customizations, review their business value with our internal teams and setup the roadmap of Liferay solution.

Andrej Kružic

Head of architecture, O2 Czech Republic

added value
